

The City of Blanchard's

Road Replacement Plan

FEBRUARY 8, 2022
Special Election

The Blanchard City Council has recommended a public vote for a 1 cent sales tax dedicated exclusively for city road, street, and bridge repair.

The estimated cost to properly repair or replace the 43.1 miles of section line roads alone exceeds \$25,000,000. Under the City's current street maintenance budget it would take decades to finance as a pay-as-you-go project.

The 1 cent sales tax will generate funds to begin rebuilding the roads for our residents, schools, and businesses by issuing low interest revenue bonds. These bonds will be paid back through this tax source.

Please vote on **February 8th, 2022** at your normal voting precinct. If approved, the road projects could start as early as the Summer of 2022.

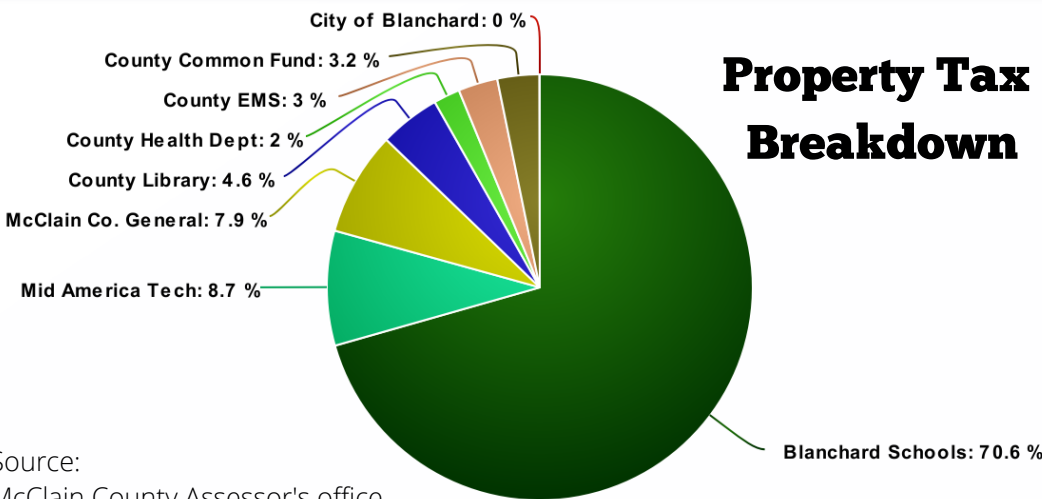

The City receives **ZERO** funding from property (ad valorem) tax.
